# RECONCILIATION REQUIREMENTS FOR THE QUARTERLY FINANCIAL STATEMENTS

The following are required reconciliations. Reconciliation does not mean that amounts must agree. The differences between the amounts, however, should have an identifiable cause and be supported. Timing differences are an example of an acceptable reconciling difference. The first section shows the reconciliation within the quarterly financial statements (i.e., Balance Sheet, Line 2 to Balance Sheet, Line 7 or Balance Sheet to Statement of Changes in Net Position). The next four sections of this attachment show the reconciliation between the financial statements and the Report on Budget Execution (SF 133), the Accounting Report (M) 1307, the Report on Reimbursements (DD 725) and the Report on Receivables Due from the Public. The last section shows the reconciliation between selected accounts in support of the Statement of Financing.

In each section, the lines listed under the left column should equal the statements and the lines listed under the right column. Special considerations will be noted at the beginning of a section as well as throughout the section. All variances should be explained in DDRS and clearly written in terms the average reader would understand.

The Standard, Current Year to Prior Year, and the Statement to Footnotes reconciliations must be in balance in Defense Departmental Reporting System – Audited Financial Statements (DDRS-AFS). In addition, reconciliations 4, 5, 6, 8, 9, 10, 11 and 13 of the Section V reconciliations must be in balance. Reconciliations that compose the Standard, Current Year to Prior Year, and Section V Reconciliations in DDRS-AFS are in this attachment. The Statement to Footnote Report can be found in DDRS-AFS.

Section I. Reconciliation Requirements for the Quarterly Financial Statements

Quarterly Financial Statement		Quarterly Financial Statement

Section III. Reconciliation Requirements for the Quarterly Financial Statement and the Accounting Report (M) 1307 (Working Capital Fund Reporting Entities Only)

NOTE: There may be differences between the consolidated level of the Quarterly Financial Statement and the Accounting Report (M) 1307 because of eliminating entries for revenue, expenses, accounts receivable and accounts payable. The differences, however, should reconcile to the eliminating entry value.
